Pet projects

MoneyTracker

Started Jun 23, 2022

Github

Very simple iOS application for tracking your money. Support EN and RU languages.

This project was created to validate my skills (and gain new ones) in development. You can support me by purchasing an in-app subscription.

WhiteNoise

Started Apr 16, 2022

Github

An app featuring calm sounds for sleeping and relaxing, including nature sounds, regular noises, and more.

iPhoneVR

Started Feb 23, 2024

Github

Work-in-progress native iOS ALVR client with full support for head position and rotation tracking using ARKit.
